RA2H30-9 Pressure Regulator

Subject: NEW FAA-PMA Approved 2H30-9 Pressure Regulator

Rapco, Inc. announces the *NEW* RA2H30-9 Pressure Regulator. This regulator is used in most General Aviation applications using pressure type systems, including Beechcraft Bonanzas. The *new* Rapco, Inc. regulator is a direct replacement for the Airborne Model 2H30-9 and supersedes the 1H30-9. Any older regulators that have seen more than 10 years service life are generally in need of replacement.

Rapco, Inc. regulators come preset to 5.2HG in inches of Mercury (Hg) and are tested for constant pressure output at various pressure inputs.

The unit will sell for: \$400.00 = **List**

The regulators are in stock and ready to ship.
